Contents vol. 49, 2023

Съдържание том 49, 2023

Aiya, H., Y. S. Valaulikar. Monotone iterative method for boundary value problem with linear condition of first order delay differential equation 283

Apostolov, S., Z. Petrov. On sequences which are not uniformly converging on any open subset 107

Argyros, I. K., S. George. Newton's method for generalized equations under weak conditions 269

Bivas, M. I., M. Iv. Krastanov, N. K. Ribarska. Linearization of differential inclusions 187

Corella, A. D., N. Jork, V. M. Veliov. Solution stability of parabolic optimal control problems with fixed state-distribution of the controls 155

Dentcheva, D. Relations between risk-averse models in extended two-stage stochastic optimization 49

George, S. see Argyros, I. K., S. George.

Georgiev, P. Gr. Variational principles for monotone variational inequalities: the single-valued case 77

Gugat, M., J. Sokolowski. An aspect of the turnpike property. Long time horizon behavior 127

Ioffe, A. D. On necessary conditions in the generalized Bolza problem .. 9

Ivanov, M., N. Zlateva. Hadamard inverse function theorem proved by variational analysis 97

Jork, N. see Corella, A. D., N. Jork, V. M. Veliov.

Kassabov, O., V. Milousheva. Minimal timelike surfaces in the Lorentz–Minkowski 3-space and their canonical parameters 301

Kostov, V. P. On Descartes' rule of signs for hyperbolic polynomials ... 251

Krastanov, M. Iv. see Bivas, M. I., M. Iv. Krastanov, N. K. Ribarska.

Milousheva, V. see Kassabov, O., V. Milousheva.

Mittal, G., R. K. Sharma. A short note on the Wedderburn components of a semisimple finite group algebra 241

Petrov, Z. see Apostolov, S., Z. Petrov.

Ribarska, N. K. see Bivas, M. I., M. Iv. Krastanov, N. K. Ribarska.

Rockafellar, R. T. Metric regularity properties of monotone mappings 1

Sharma, R. K. see Mittal, G., R. K. Sharma.

Sokolowski, J. see Gugat, M., J. Sokolowski.

Tsachev, Ts., I. Vassileva. Fiscal policy options for reducing informality in an economy with fiscal rules 205

Valaulikar, Y. S. see Aiya, H., Y. S. Valaulikar.

Vassileva, I. see Tsachev, Ts., I. Vassileva.

Veliov, V. M. see Corella, A. D., N. Jork, V. M. Veliov.

Zagorodnyuk, S. M. On orthogonal Laurent polynomials related to the partial sums of power series 231

Zlateva, N. see Ivanov, M., N. Zlateva.

Zolezzi, T. An upper bound for a condition number theorem of variational inequalities 33
